

Intermediate Drafting Technician - Contractor

Job Description

In this role you will be advancing design concepts into detailed drawing and specification packages for permit application and construction. This is a unique work from home opportunity and a project based contract position.

Skills Required

- Bachelor or Masters Degree in Interior Design and/or Architecture
- Minimum 5 years post graduate work experience in **residential** Interior Design
- **Mandatory** knowledge of BC Building Code & Vancouver Building By-Laws
- **Mandatory** software proficiency: Vectorworks, Microsoft Office, Photoshop, database programs like Filemaker
- Driver's license and access to car (car-to-go membership, etc.)
- Experience working with high-end products, details and projects
- Experience working with clients who are at the top of their game
- Experience managing and producing drawing and specification packages for client presentation, permit and construction
- Experience with contract administration and co-ordinating construction details with contractors, trades and suppliers

The Falken Reynolds team is...

- Highly personal in our approach to creating inviting spaces for our clients
- Impeccably attentive to details
- Organized and able to manage several projects simultaneously
- Mature and articulate communicators – verbally and visually
- Entrepreneurial, proactive and solution oriented
- Comfortable working independently and collaboratively
- Curious – about design and people, and how they impact each other
- Excited about working in a progressive, globally minded design practice

Please email CV & Portfolios including a drawing package to sepi@falkenreynolds.com with "Drafting Technician - Your Name" in the subject line. Due to the number of applications we receive only those selected for an interview will be contacted. Thank you for your interest in Falken Reynolds.
